## External Wall System (EWS) Evaluation Report

### Statement of Competency of Report Author/s

EWS1 compliance assessment forms, which are issued by Metro SRM, are supported by an EWS1 survey report which is based on a desktop review of a report, or reports, which set out the findings of intrusive surveys of the external wall. The intrusive surveys were carried out by competent and approved survey companies, working under the instruction of Metro SRM.

### Competency:

The report author, Patrick Scott-Youlton is employed by Tennyson Suite Limited and holds:

BEng (Hons) Fire Safety Engineering degree.

Relevant and extensive experience relating to external wall systems.

Evidence of Continuous Professional Development including regular participation in the IFE accredited annual International Tall Buildings Conference.

Is a Member of the Institute of Fire Engineers – MIFireE

NOTE: Due to restrictions in working practices, implemented in response to the COVID-19 pandemic, the IFE members web site is not currently up to date. Oct 2020

In addition, Patrick:

Is a former elected member of the Fire Industry Association Fire Engineering Council.

Was co-opted by Sir Ken Knight on to a National working group titled 'Fires in the built environment'.

Served on the Chief Fire Officers Association Fire Safety Review Committee.

Tennyson Suite Limited is:

Registered with the Chartered Institute of Building: Registration No 1479989

Accredited to: ISO 9001; OHSAS 18001; and BS EN ISO 14001.

The EWS1 survey reports are reviewed and approved by John Lawrence.

John Lawrence is:

A Chartered Member of the Institute of Building

A Fellow of the International Institute of Risk and Safety Management.

Employed by Tennyson Suite Limited.

Yours sincerely

Colin Bassnett, MiFireE CFP (Eu) Dip

Principal Fire Safety Advisor

MetroSRM
